AHMET CAN BOYRAZ

Senior Software Engineer

boyraz.ahmetcan@gmail.com | linkedin.com/in/ahmetcanboyraz | Ankara, Turkey (UTC+3) | Remote Available Worldwide

SUMMARY

Senior Software Engineer with 10+ years of enterprise software development experience. Specialized in .NET, microservices architecture, Domain-Driven Design, and full-stack development. Proven expertise in e-commerce platforms, multi-tenant systems, and team leadership. Proficient in C#, .NET 8, Angular, React, Go, and cloud technologies. Open to remote opportunities worldwide with flexible working hours across time zones.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, Go, Python, PHP
Backend: .NET Core, .NET 8, ASP.NET Web API, Entity Framework Core, Microservices, RESTful APIs, GraphQL, SOAP
Frontend: Angular, React, TypeScript, RxJS, Svelte, HTML, CSS
Databases: SQL Server, PostgreSQL, MongoDB, MySQL, Oracle, Redis
Architecture: Domain-Driven Design (DDD), Onion Architecture, CQRS, Event-Driven Architecture, Microservices, Clean Architecture, SOLID Principles
Tools & DevOps: Docker, CI/CD, GitHub Actions, DigitalOcean, RabbitMQ
Testing: Functional Testing, Integration Testing

PROFESSIONAL EXPERIENCE

Lead Developer | IQURBAN.COM | Sep 2025 - Present

Full-stack development of multi-tenant B2B commerce platform.

- Architected scalable platform using Go, PostgreSQL, and Svelte with clean architecture
- Implemented multi-tenant database architecture for isolated data across business entities
- Configured CI/CD pipelines and integrated payment gateways and notification services

- Developed responsive frontend interfaces and RESTful APIs

Tech Stack: Go, PostgreSQL, Svelte, Flutter, Docker, CI/CD

Senior Software Engineer | BilgiPark Danismanlik | Jun 2025 - Jan 2026

Centralized e-commerce management platform synchronizing products, inventory, and orders across multiple marketplaces.

- Designed microservices architecture using .NET 8 with DDD and onion architecture (Product, Inventory, Order, Invoice services)
- Built GraphQL APIs for Shopify integrations with optimized schema design
- Deployed MongoDB infrastructure for distributed logging and data aggregation
- Developed Angular admin dashboard with real-time analytics and RabbitMQ messaging

Tech Stack: .NET 8, DDD, MongoDB, GraphQL, RabbitMQ, Angular, Docker, Microservices

Senior Software Engineer | BELSIS | Jul 2024 - May 2025

Municipality management software solutions for government entities.

- Built SOAP web service integrations and maintained legacy Classic ASP applications
- Managed ETL processes migrating data from Oracle to SQL Server
- Developed government compliance solutions and collaborated with stakeholders

Tech Stack: .NET Framework, Classic ASP, SOAP, SQL Server, ETL

Software Development & IT Manager | Kapsam | Jun 2021 - Dec 2023

Managed development team and led architecture of enterprise desktop applications.

- Led team of 5+ engineers, established coding standards and agile workflows
- Developed WPF applications using MVVM and N-Tier architecture
- Improved application performance by 40% through optimization and query tuning
- Mentored junior developers on architectural patterns

Tech Stack: C#, .NET, WPF, MVVM, Entity Framework, SQL Server

Software Engineer | Erguvan Teknik A.S. | Sep 2017 - Mar 2021

Enterprise applications and RESTful Web APIs for order entry systems.

- Built WPF desktop applications with MVVM and ASP.NET Web APIs
- Applied SOLID principles, dependency injection, and design patterns
- Reduced bug reports by 35% through unit testing and code reviews

Tech Stack: C#, .NET, WPF, ASP.NET Web API, Entity Framework, SQL Server

EDUCATION

M.Eng, Software Engineering | Ahmet Yesevi University | In Progress
B.Eng, Computer Engineering | Mevlana University | 2016

CERTIFICATIONS

Foundational C# with Microsoft · C# Basics · Django Web Development

LANGUAGES

Turkish: Native | **English:** Professional Working Proficiency (C1 Level - Fluent in technical communication, meetings, and documentation)
